Core Competencies: Business Intelligence Reporting, Dashboard Design & Development, Reporting Automation, Data Cleaning & Validation, Requirements Gathering, Stakeholder Management, Data Storytelling, Agile Delivery

EXPERIENCE

Logic Pursuits Pvt Ltd	Jun 2024 – Feb 2026
Data Analyst	Hyderabad
- Led end-to-end Power BI report design and delivery for 5+ enterprise clients across fintech, retail, and HR — from requirements gathering and data modelling to published dashboards — driving adoption by 50+ business users and cutting reporting discrepancies by 75%+. - Partnered with business stakeholders to translate complex requirements into interactive Power BI dashboards with advanced DAX measures, KPI cards, slicers, and drill-through pages, improving decision-making speed by 45% across all client engagements. - Conducted ad hoc data analysis using SQL (CTEs, window functions) to answer business questions on revenue trends, customer behaviour, and operational performance, delivering insight decks directly to senior stakeholders within 24 hours of requests. - Designed and automated executive-level weekly and monthly reports with scheduled refresh, row-level security, and data validation checks, saving finance and ops teams 20+ hrs/week and reducing issue resolution time by 35%+. - Automated recurring reporting workflows using Python (Pandas) and SQL, compressing time-to-insight from days to under 2 hours and freeing 50%+ of manual analyst capacity for higher-value analysis.	
Bankit Services Pvt Ltd	Sep 2021 – Sep 2022
Executive – Data Analyst	Noida
- Analysed 2M+ daily payment transactions using SQL Server to surface settlement mismatches, failed gateway patterns, and chargeback trends, producing daily operational reports that reduced detection time by 40%+ and resolution speed by 35%+. - Built finance and operations reporting dashboards in Tableau covering payment funnel performance, customer cohort analysis, and transaction KPIs — eliminating 20+ hrs/week of manual reporting and directly informing product roadmap decisions. - Conducted root cause analysis on recurring payment failures and reconciliation gaps using SQL, presenting findings in structured insight reports to product and ops teams, reducing repeat incidents by 30%.
